WE WON'T BE LEFT BEHIND

Strong trade union action has forced politicians to give more money for pay and staffing in health and social care. But so far, workers in the civil service and its ALBs have not been mentioned. We need to send a clear message that we will not be left behind.

We have endured almost a decade of pay cuts. We demand a change in the new decade ahead.

Our message to the politicians in Westminster and Stormont is simple

- Fair pay for civil servants
- No more pay cuts
- Hands off our terms and conditions.

**Show your solid support for this action
on 24 January to push for a decent pay
increase for us all.**
