A national minimum agreement on homeworking policies for all councils

The LGA's Workforce team has gathered a number of examples of local proposals and policies from councils that are moving to a hybrid working model. It is also providing advice and guidance on organisational development strategies and employment practices that support post-COVID workforce transformation. All of this work includes issues raised in your proposals, so the employers suggest that the NJC begins discussions on how they could be included in joint framework guidance.

The employers noted your repeated request for the introduction of a homeworking allowance for all staff who are working from home. This issue received no support from councils during the regional pay consultation process, so the employers reaffirm their previous rejection of this element of your claim.

An agreement on a best practice national programme of mental health support for all local authorities and school staff

The LGA's Workforce team has collected large amounts of data and information relating to local policies which could be highlighted jointly as examples of good practice. Throughout the pandemic, the LGA's Workforce team has worked with a number of national partners to offer a wide range of emotional and physiological wellbeing guidance and information for managers and staff across the different sectors of our workforce, with a particular focus on mental health. A programme of work is planned that will provide more advice and guidance to local government employers to help support them to manage the transition of staff out of 'crisis' or 'react' mode and to develop employment practices that have wellbeing principles and competencies at their core. The employers propose that the NJC begins discussions on producing joint guidance.

A joint review of the provisions in the Green Book for maternity / paternity / shared parental / adoption leave

The employers noted your proposal for a new '*family leave and pay*' section in Part 2 of the Green Book. The employers request that you provide more details so that they are able to properly consider this suggestion.

You will be aware that the Government will be issuing its response to its 2019 consultation on the potential reform of the statutory provisions for maternity, parental and family leave and pay before the end of the year. Therefore, the employers propose that the NJC waits to see what the government brings forward before it embarks on a review of its own.

However, the government will be introducing neo-natal leave and pay. The new statutory provisions will allow for an additional week's leave for each week a neonatal baby is in hospital, for up to 12 weeks, paid at the statutory rate of £151.97 per week (or 90 per cent of earnings if less).

The National Employers propose that this new provision is incorporated into the National Agreement's Maternity Scheme.
